

Chiana Senior High School

P.O Box 137

Chiana Navroongo

Upper East Region

Dear sir,

MOTIVATIONAL LETTER

I am very pleased to write to you to explain why I think I am qualified for your scholarship. I do hope you have the time to read my plea.

Before I start, I will like to introduce myself and my family background to you. I am Aketirah Pius, a young man of twenty who come from a village in the Kassena Nankanna West district called Kanania in the heart of Chiana. My family is made up of one younger sister at the senior high school, a senior brother also a graduate of senior high school and quadruplets younger brothers at the primary school all depending on my father who is a peasant farmer and my mother.

First and foremost, looking at the family size, it is very difficult for my father alone to provide our educational needs adequately without any support from any one. For instance, I was placed At Bolgatanga Senior High School to offer General Science when I completed Junior High School because of financial inadequacy I could not attend that school.

Secondly, after my parents struggled to pay for my admission to Chiana Senior High School, they were not able to pay for the subsequent fees. This is not because my parents are irresponsible but because they are poor. Not being able to pay the school fees was so disturbing because there were so many threats of sacking those who are not able to pay their school fees. It even came to a time I was not allowed to eat from the dining hall because I was not able to pay my school fees. All these were very frustrating yet I had to go to school to

become who I want to be. I have only been able to pay off my school fees after I completed by the grace of God.

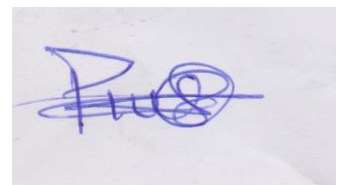

Notwithstanding, the above challenges did not weigh me down, I still stay stood tall topping my class from form one to form three and represented my school in quizzes programs and finally had the best grade of the school at our year. All I am trying to say is that under any condition I am willing and able to study hard without losing focus.

I wish to let you know that I am determined to make situation better in my society making sure that the younger ones don not go through what I suffered through education and hard work but have very little resource available. Your scholarship is really going to help me greatly because by that I will have background strong enough to support others later in the future to become who they want to be in life.

In conclusion, considering the above you could see that I have the spirit to study and work hard to change my society I therefore thin I need this scholarship most in realizing my dreams as a teacher and I promise not to disappoint you in any way if I am given the chance

Thank you.

Yours Faithfully,

A handwritten signature in blue ink, appearing to read 'Pius'. The signature is stylized with a large 'P' and a circular flourish at the end.

Aketirah Pius.
